

**SkillsUSA Maryland State Championship
2017 Inactive Application and Video Game Development (IAGD)
Contest Update**

- All IAGD teams will supply a computer with appropriate software with application and/or game running on that computer.
- Teams will need power strip surge protectors and extension cords to guarantee appropriate power supply.
- All teams must provide their own materials to submit and/or display their planning, their concept art, and their code, how they broke down the division of labor, and an affidavit. (One page each, 8.5x11 or 11x17 is preferred)
- Judges will spend 5-10 minutes playing each game/app and another 5-10 asking questions and reviewing materials.
